Kryptronic Software Fee Schedule

The following tables illustrate rolling quantity price breakpoints for wholesale distribution of Kryptronic software. The suggested retail price of the software is between 100% and 150% of the cost of a single user license. Includes an application software license, licensing agreement, installation instructions and user manuals. Resellers can offer installation or technical support or Kryptronic can provide reseller support.

The first two licenses must be purchased at the Internet Retail price of the software at that time. If the software is on sale at the time of purchase for the first two licenses, prospective resellers will pay the sale price.
